

FLAT PACK DISPLAYS 2020

OUR CLIENTS ADVANTAGE

1

All our displays already have production blueprints so no design time is necessary, decreasing the overall lead time.

2

Due to the flat packing, the transport volumes are 5 to 10 times lower than for standard displays.

3

Our displays are packed and shipped on europallets, which is decreasing and optimizing their storage.

4

Each display is individually packed in its own cardboard box. So it can be stocked and resend individually if necessary.

5

All our displays are easy to install even by first timers and they come with detailed and intuitive instructions.

6

The whole process, from planning to production and packing is designed to optimize our client's budgets. The minimum quantities are also considerably lower compared to industry standards.

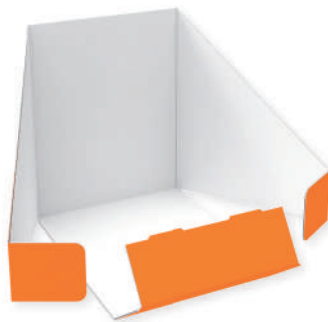

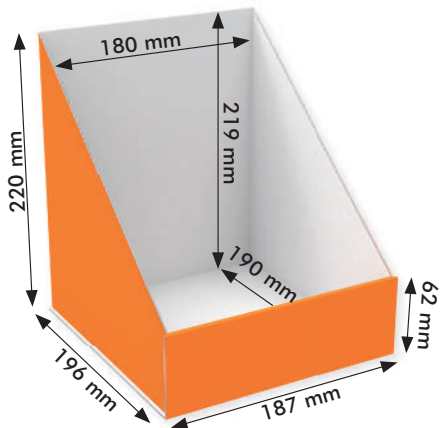

7

Using our displays, the lead times become way shorter and life way more simple for you!

Counter Display 350x415x990+360 mm Header [0043604]

Outer overall dimensions:
