ROLLER

Achieving the best convenience for customers while shopping should always be main goal! The invention of the roller basket with 2 or 4 wheels is one of the best solutions for easy shopping! Even heavy loads can be transported and moved easily while walking through the shop. This advantage can be applied into any shopping concept (e.g. Supermarkets, Hypermarkets, Sports-Shops or Garden-Centers).

This galvanized steel cart was designed to lift the 80 Liter basket up to the shoppers waist level. This makes it much easier to put groceries inside while shopping. By simply placing the basket on the support it works as a compact shopping cart. The 4 revolving wheels make it easy to push the cart from all sides. At the bottom it is equipped with a bottle-box support that can carry a weight of 10 kg.
